**Living in the Present – 4**

Live today,  
live intensely the present moment.  
Too many people  
waste their lives  
in preparing for the future.  
Too many people let the present moment,  
with its power to change everything,  
to improve everything,  
slip through their fingers.

*Louis-Marie Parent, The Present Moment, 1991 Editions Paulines, p. 86*
